

REI RICOH ELECTRONICS, INC.  
SANTA ANA, CALIFORNIA

**REI Ricoh Electronics, Inc. of Santa Ana, California** makes dry toner, liquid toner, thermal transfer ribbon and thermal media paper products. The facility is certified to ISO 14001.

ENVIRONMENTAL  
PERFORMANCE

*Past Accomplishments*

REI Ricoh Electronics, Inc. has demonstrated its commitment to environmental performance through reducing solid waste, and NOx emissions. Since 1999 the facility has:

- **Reduced solid waste** by 70% through training employees in sorting materials for recycling as part of a Zero Waste to Landfill program.
- **Reduced NOx emissions** by 8.5% through burner tuning.

*Future Commitments*

REI Ricoh Electronics, Inc. is working to reduce solid waste, NOx emissions, hazardous materials use, and energy use. By 2004 the facility will:

- **Reduce solid waste** by an additional 5,000 pounds through continuing to increase recycling.
- **Reduce NOx emissions** by another 10% through improving the efficiency of the paper coating oven.
- **Reduce hazardous materials use** by 20% through research and implementation of materials substitution.
- **Reduce energy use** by 27% through installing multiple energy efficient burners in the oven system.

**AT A GLANCE:**

Industry Sector:	SIC 2672
Business:	Paper and allied products manufacturing
Employees:	100 - 499
Accomplishments:	Reduced solid waste Reduced NOx emissions
Commitments:	Reduce solid waste Reduce NOx emissions Reduce hazardous materials use Reduce energy use
Address:	2320 Redhill Avenue Santa Ana, CA 92705

## COMMUNITY OUTREACH

REI Ricoh Electronics, Inc. identifies and responds to community concerns through partnering with local environmental organizations and community service projects. REI Ricoh also educates its employees about community concerns through posters, contests, trainings, and newsletters. The facility informs community members about important matters through newspaper articles, newsletters, Prop 65 warnings, corporate environmental reports, rideshare programs, and cable TV. It will distribute its annual performance report through the local newspaper, the corporate environmental report, and on its website:
